GS Solutions LLC

GS Solutions LLC was established early 2010 with the online e-commerce store Breathalyzershop.com. GS Solutions LLC sells portable alcohol breathalyzers online for use by professional businesses and for personal entertainment. Co-owners Jeffrey Short and Thomas Gilbert wanted to bring the sales of breathalyzers online for the ease of purchase for its customers and to promote the safe consumption of alcohol. We believe the use of breathalyzers can help prevent excessive alcohol consumption and reduce the amount of drunk driving. In May of 2010 GS Solutions LLC added a second e-commerce site, Alcoholawkbreathalyzer.com, to its company in order to expand its customer base and promote its product further.
